**"ELI 360 was instrumental in helping us" - Rajan & Shanthini**

27th June 2007

We write this letter from Kuala Lumpur, Malaysia to testify how God has led our eldest son to further his university education at Hardin-Simmons University in Abilene, Texas. We have three sons, all home schooled through a US based program called "alpha omega". As our eldest son was preparing for the SAT examinations, we were praying for guidance on the selection of a good Christian university with affordable fees.

Looking back, God did work his miracle by bringing Ted, a founder of ELI 360, to KL during this critical decision making time. Our son met Ted during a seminar given to homeschoolers regarding education at private universities in the USA. ELI 360 was instrumental in helping us with the university application process, choice of university, visa application and advice on travel to the US. However, we must add that Ted and ELI 360 played a much more personal role in our lives. We felt we were treated as a single client not as one of many.

Ted's advice was invaluable in convincing our son to re-sit for the SAT examinations where with God's grace he managed a much higher score enabling him to get a better scholarship. In addition, on his initial trip to Texas to begin

his studies he was stranded at the Dallas airport due to bad weather and could not proceed to Abilene. ELI 360 made instant arrangements for him to be picked up by friends who looked after him until he could travel to Abilene. Even now Ted and his family regularly invite our son and a number of other students to their home for fellowship. We feel there is a community of people who have welcomed our son and helped make Abilene his new home away from home.

Our eldest has settled down well and is enjoying university life. We thank God for ELI 360 and we pray that they will be able to continue this wonderful ministry for foreign students and touch many more lives like ours.

God Bless

Rajan & Shanthini
